DEVELOPING GREEN ENTREPRENEURSHIP

Agriculture Skill Council of India

Agriculture Skill Council of India was set up in January 2013 as a Section 25 company under Companies act of Ministry of Company Affairs. The endeavour of ASCI is to work towards building capacity in the Agriculture Industry and bridge the gap between laboratories and farms. ASCI envisions to touch/ upgrade skills of Cultivators, Agricultural Labours and Direct and Indirect labour engaged in Organised and Unorganized Agriculture and Allied industry.

Pradhan Mantri Kaushal Vikas Yojana (PMKVY) is a unique initiative by the Government of India that aims to offer 24 lakh Indian youth meaningful, industry relevant, skill based training. PMKVY was envisaged as a key measure to impart skills-based training to the youth, making them capable of earning and supporting the nation's anti-poverty endeavors. The scheme becomes all the more important

Green collage extension support cell would help entrepreneur to access MUDRA, Startup India and insurance linkages including of various supports available with Government schemes.

About Dairy Farming

Dairying is an important source of subsidiary income to small/marginal farmers and agricultural laborers. In addition to milk, the manure from animals provides a good source of organic matter

for improving soil fertility and crop yields. The gobar gas from the dung is used as fuel for domestic purposes as also for running engines for drawing water from well. The surplus fodder and agricultural byproducts are gainfully utilized for feeding the animals. Almost all draught power for farm operations and transportation is supplied by bullocks. Since agriculture is mostly seasonal, there is a possibility of finding employment throughout the year for many persons through dairy farming. Thus, dairy also provides employment throughout the year.

Advantages

- Dairy is a commercial establishment for processing or selling milk and milk products.
- Dairy farming has the potential to provide sustainable livelihood for small and marginal farmers while also giving food and nutritional security.
- Market demand and price is always high.
- Indian climate is very suitable and favorable for Dairy farming.
- It has emerged as one of the attractive commercial activities for young generation.
- Various type of breeds are easily available.
- Easily available of low cost labors.

Course we are offering:

Certificate course in Dairy Farming(theory & practical with exposure)

Duration: 3 Months

Minimum qualification: Primary

Age limit- between 18-35 years.
